# COLLAPPIN

**MARINE COLLAGEN - HYALURONIC ACID - VITAMIN C**

Lacking in collagen? **Collappin** is a specific complex highly concentrated in marine collagen hydrolyzate (Naticol®- collagen peptides), hyaluronic acid and vitamin C.

**IMPLICATIONS**

✓ Hyaluronic acid is one of the natural constituents of synovial fluid corresponding to the articular fluid in which the cartilage is found. Vitamin C contributes to the proper functioning of cartilage;

✓ The action of collagen and hyaluronic acid is enhanced by vitamin C which contributes to the normal formation of collagen to ensure the functioning of the skin;

✓ Endogenous collagen ensures the proper formation of connective tissues.

**ADVANTAGES OF THE FORMULA**

✓ Naticol patented shape® based on marine collagen hydrolyzate;

✓ Collagen proteins rich in hydroxyproline (collagen I & III peptides);

✓ Synergy of active ingredients combined with hyaluronic acid and vitamin C;

✓ Natural galenic form (pullulan) and excipient (rice starch).

**PRECAUTIONS FOR USE**

Allergen: contains fish. If you are allergic to active substances (fish).

**RECOMMENDATIONS**

This dietary supplement does not replace a varied and balanced diet and a healthy lifestyle and is not a drug. Inform your doctor and/or pharmacist if you are taking medication at the same time. Keep out of the reach of children. Store at room temperature and in a dry place. Do not exceed the recommended daily dose.
