

## NATURAL FOOD SUPPLEMENT

CONTENT PER CAPSULE  
ENZYVITSWEIGHT  
605mg

## INGREDIENTS:

Mixture of enzymes: alpha-amylase, lactase, lipase, protease, cellulase - Bromelain - Papain - capsule shell: pullulan - dry extract of ginger (Zingiber officinale - rhizome) - rice starch.

NUTRITIONAL INFORMATION	2 CAPSULES	AR%*
ginger extract	100mg	-
Bromelain	200mg	-
Papain	200mg	-
Alpha-amylase	110mg	-
Lactase	60mg	-
Lipase	10mg	-
Protease	5mg	-
cellulase	5mg	-

\* RI = reference intake.

## USING ADVICE :

1 to 2 capsules per day with a glass of water, at mealtime or as prescribed.

## ENZYVITS

## VEGETABLE DIGESTIVE ENZYMES - BROMELAIN - PAPAIN - GINGER

**Enzyvits** is a food supplement composed of a mixture of 5 "Vegazym" enzymes, combined with bromelain, papain and a ginger extract. The Vegazym complex contains natural enzymes, including alpha-amylase, lactase, lipases, proteases and cellulase.

The enzymes in the Vegazym complex come from microbial sources and are certified non-GMO, gluten-free and allergen-free. Unlike enzymes of animal origin, sources of microbial origin are more resistant to gastric acid and have a broader spectrum of action in the digestive tract.

## HEALTH CLAIMS

✓ Ginger helps support digestion.

## ADVANTAGES OF THE FORMULA

✓ Optimal blend of enzymes (glycolytics - lipolytics - proteolytics);

✓ Added vegetable enzymes (papain and bromelain);

✓ Ginger extract supports enzymatic actions;

✓ Natural galenic form (pullulan) and excipient (rice starch).

## RECOMMENDATIONS

This dietary supplement does not replace a varied and balanced diet and a healthy lifestyle and is not a drug. Do not use in children under 12 or in pregnant or breastfeeding women.
